FINAL YEAR PROJECTS:

TITLE: ESP HOPPER ASH LEVEL SENSING SYSTEM WITH OPC-UA INTERFACE

(2023) BHELL, RANIPET

Description:

The ash level indicator system implements a capacitive sensor for measuring ash at the field. The sensor signal from the field is processed in the controller and the data sent over OPC UA by implementing a server over Wi-Fi. The client device connects to the device and ash level indication, calibration and level status are viewed at the client display.

- cost reduction for industry and stress-free environment.
